RENEWED PETITION TO REVIVE APPLICATION UNDER 37 CFR §1.137(b)

In response to the decision to dismiss the Petition to Revive Application Under 37 CFR §1.37(b), mailed May 2, 2007, Applicant respectfully submits the following facts.

Applicant submits that the delay during the time period from October 13, 2005 to September 18, 2006 is unintentional, and is believed to be a postal error. Applicant did not receive the Decision on Petition to Withdraw the Holding of Abandonment that was mailed on October 13, 2005, and accordingly did not respond to the decision. Applicant first became aware that the application was abandoned on September 18, 2006, during a routine status check. Upon discovery that the application was abandoned, a Petition to Revive was then docketed in Applicant's patent docketing database system, and was subsequently filed on March 1, 2007. A copy of the application record from our patent docketing database system is enclosed in support of the above (2 pages).

Applicant submits that the delay during the period from September 18, 2006 to March 1, 2007 is unintentional, and due to an improper docketing error. Upon discovery of improper abandonment, it is our normal docketing practice to docket a final due date of two months time to file a Petition to Revive. However, in this case, the time period was improperly docketed to a final due date of six months time. Applicant respectfully notes that a Petition to Revive was filed by the improper six month due date. A copy of the application record from our patent docketing database system is enclosed in support of the above (2 pages).
